## DETAILED ACTION

### ***Allowable Subject Matter***

1. Claims 1-25 are allowed.
2. The following is an examiner's statement of reasons for allowance:

In the Response to Office Action, dated November 10, 2005, the Applicant has submitted that the term "branched grammar" as used in independent claims 1, 4, and 9, refers not to any technique for capturing pronunciations, but refers to a specific technique for capturing pronunciations, i.e. the techniques described in the specification. Fig. 5 shows the specific technique of branched grammar which represents multiple sequences of multilingual phonemes, which can be used to determine various pronunciations, by utilizing single phoneme symbols for phoneme symbol differences in the multiple sequences. Given this definition of the term "branched grammar" the prior art of record does not disclose or suggest the step/means for generating variations of pronunciations which are recognizable in response to said sequences of multilingual phoneme symbols determined by the use of a branched grammar, as recited in independent claims 1, 4, and 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
